Ladies cry for it, girls demand it and the little kids howl for dresses of Silk Striped Challies. There are still some yards left of this fashionable material at the store of L. B. Kerr on Queen street.

Man—brave man—now wants to be well-dressed. Let him go down to Queen street and select a piece of goods intended to make a most becoming and fashionable suit and his object is gained. L. B. Kerr furnishes the material.

Address all communications to the Editorial Department of the INDEPENDENT to Edmund Norrie. Business letters should be addressed to G. C. Kenyon. This is necessary for the present as the Post Office will withhold all mails addressed simply to the INDEPENDENT, owing to the suit brought by A. V. Gear.

Sans Souci.

The most lovely spot on Oahu is Sans Souci. This favorite seaside resort, which has been immortalized by the pen of Robert L. Stevenson, who resided there for months, is only four miles from Honolulu and within easy reach of the tramcars. The surroundings and bathing at this famous resort are superior to anything found in the Hawaiian Islands. Cottages and board can be obtained on easy terms. The table set by the manager is better than any offered here at other hotels. For picnics, bathing parties and outings the best accommodation can be secured by giving notice to the manager.

Spectacles for Horses.

The Optician confirms the story that a well-known firm of opticians in London manufacture specially-constructed spectacles to be worn by horses. The object is to promote "high-stepping." Horse spectacles, we learn, are made of stiff leather, quite enclosing the eyes of the horse, and the glasses employed are deep concave and large in size. The effect is to give the ground in front of the horse the appearance of being raised; the animal, therefore, steps high, thinking he is going uphill, or has to step over an obstacle in front of him.

If the system is persevered with when the animal is young the effect is said to be marvelous. Many horses, it is alleged, could be materially improved by a visit to the optician, and it is recommended that the sight of all horses should be tested. This particularly applies to valuable hunters, which are found optically unfit for their work, when a little artificial assistance would make them as useful as ever. Apart from this consideration, many vices, it is believed, might be cured by means of eye-glasses. The cause of shying is, as a rule, short sight.

Honolulu, July 22, 1895.

It cannot be denied that the war cloud which hangs over the world at present is getting darker and darker. It is a historical fact that the end of each century has always been fraught with bloodshed and strife, internally as well as externally. The great powers of Europe to-day are making and unmaking alliances of all kinds. The fact is that diplomacy to-day is using every means to postpone the day when the crash must come and gain time for the different countries to prepare themselves for the gigantic struggle which will and must take place before the present generation dates its letters in the year 1900. Turkey is threatened from all sides. The Russian bear is extending his claws and licking his blood-thirsty tongue towards the East and South in anticipation of gain. The passive and cold brother nations who inhabit the Scandinavian peninsula are now glaring ferociously ready to spring at each other's throats. Germany, under its impetuous, indiscreet imperial master, is drifting into the deceptive maelstrom of conquest, and war, in which all past experience, all knowledge gained through the horrors of war are forgotten, and where only false sentiment and sham patriotism are ruling.

And while the giants get ready for the great war their leaders have realized one thing, and that is, that no army will have a show, no militia a chance, except provided with the indispensable bicycle. And no wonder that the monarchial countries of Europe prefer the "Monarch" to any other kind, and supply their "wheeling cavalry" with that favorite brand.

We have watched proceedings in the great countries with a great deal of care, and we have secured the sole agency for Hawaii of the Monarch Cycle. We have realized that, not alone a large stock is necessary, but that a workshop, in which all needed repairs can be done is in the interest of our patrons, and we have established one above our stores on Fort street. This "bicycle infirmary" will attend to any "sickness" which the wheel may meet through accident or lack of care. Our prices are far below veterinary figures. We fix the Monarchs sold by us at cost price if ever they should need it. We have everything on hand and have secured the services of a most experienced bicycle man, whose work we guarantee.

As the bicycle is not only of advantage in war but love, we wish to call the attention of the young boys and girls who have to spend their vacations in Honolulu, that we have wheels just suitable for them. If daddy can't send them to the country for a trip—or buy them a bow-wow—let them ask him for a Monarch. It will give more pleasure and last much longer than even a volcano trip.
